THOMAS R. JERNIGAN IN TRAINING AT FORT JUDSON COLLEGE

FORT KNOX, Ky., Oct. 5—
Ready to begin his basic training course at Fort Knox, where he will qualify him for duty with the Armed Forces, Private Thomas R. Jernigan, son of Mrs. Eula Mae Jernigan, Elba, Ala., newly home from service, was admitted at the Armed Forces Replacement Training Center here preparatory to duty to the newest and fastest-moving unit of the Army.

For the first 12 weeks of this 12-week training period he will be taught the fundamentals of soldiering. He will study the organization of the Army and Armed Forces; importance of morale, courage and discipline; care of clothing and equipment; map reading and navigation.

During the second six-week period, he may find himself in one of the following companies: special training, light tanks, medium tanks, anti-aircraft gun patrolling, mortar, anti-tank, machine gun, assault gun, reconnaissance.

Miss Barbara Jean Wise, of Victoria, is visiting Mr. and Mrs. Robert King this week.

MISS KENDRICK ENROLLS AT JUDSON COLLEGE

MARION, Ala.—When Judson College opened its 105th session Sept. 14, Miss Olive Ray Kendrick, of Elba, was one of a large group of freshmen admitted at the new institution, which has the honor of being the world's oldest Baptist college for women. Miss Kendrick is the daughter of Mr. and Mrs. D. K. Kendrick, of Elba.

Since coming to Judson the freshmen have been entertained by various student groups; they have attended four dinner receptions. Freshman orientation was scheduled for Sept. 15 to 17 and during this time they took brief tests, physical exams, and dental examinations. Letters have been informal receipts at the homes of President and Mrs. Leroy R. Priest, and of Dean and Mrs. Robert Bowring.

An Army motor trailer looks much like one that would be popular with many who may be seen on the highways or in the tourist's camp. The Army's trailers are used as traveling hospitals, dental clinics and testing laboratories.

These mobile surgical or dental units are hauled to their destination and the trucks released for other purposes. Total cost, from \$1,200 to \$3,000 and weigh from 1½ to 2½ tons.

Toys help pay for them.

ELECTION NOTICE

Notice is hereby given that a
special election will be held in
Coffee County, Alabama, on the
third day of November, 1942, for
the purpose of determining
whether or not a special tax shall
be levied and collected annually
at the rate of 10 cents on each
one hundred dollars' worth of tax-
able property in said county, to
defend and protect the same from
any and all invasion, rebellion, or
uprising.A resolution was passed thank-
ing Judge J. W. Brock for his
services in the defense of the Harp
books. This donation was appreciated
very much on account of the
shortage of books. It has been
expressed that this will not
be any more printed until after
the election.A resolution was offered by H. O. Dyess thanking
the people of the community for their
visitors while in their midst.The class was dismissed by H.

LEAVES PREVENTS FLIESAUBURN, Ala.—Unless far-
mer's peanuts are harvested quickly
they may infest the litter and
cause serious damage to livestock
during warm periods in winter.To overcome this danger, Al-
abama agriculturists have ad-
vised that all peanut litter sus-
tained for feed be piled or hauled to
shelter and stored immediately
and never allowed to remain in
the field if it is to be used later.
It is better to scatter or plow under im-
mediately after threshing.Where there is no shelter, it
is best that it be loaded on wagons or ma-
nure spreaders and scattered
over fields. Ploowing under infested
litter merely delays infestation.It is better to scatter or plow under im-
mediately after threshing.In practice, so far de-
veloped from the point of view that
we can help our Christian
life, that the above is true.In place of the normal Christian
life according to God's standard, we have
the great possibility of growth
and development of Christian life.

If we are satisfied, and if perchance we

surpass it we count ourselves among
the best spiritual leaders. And
the time the average student is
far below the normal Christian life

which God not only expects but is

ready to enable and empower us to

live.

Peter tells us in this passage that
the great and precious promises of
God in Christ are only available
to those who escape the corruption of
the world.

First, we must be willing to leave

—really moral courage, or

character. What a fine step for-
ward this is! Moral courage

gives practical skill to effective daily

living for Christ. Such spiritual

development will naturally lead to
self-control, which is needed much

needed by most Christians.

The self-controlled one will always

have "patience," that is, the en-
durance and strength of character

needed to withstand temptation.

We need to be more patient

not only with others, but also with
ourselves, even in this matter of
Christian growth of which we are

a part.

A life like that is a life of "godli-
ness," which will blossom out in

good citizenship. There is

not too much of that in the world

today, even among Christians. Let's

revive it! Then what? The one

who has the greatest love for God

will be the greatest soldier.

GROWTH IN CHRIST

LESSON TEXT—Luke 2:40-52; II Peter
1:1-4.Growth is a normal thing. We
expect it of the child, and when it
fails we know that something is
wrong. Just so there is something
very definitely wrong in the life of
any Christian who fails to grow in
grace. If a child fails to grow we
are alarmed, but if a Christian does
not grow we hardly notice it, or at
most only express our regret. We
need a review.

L. Normal Children Will Grow

While Christ was a man in the
same time as the other children he
was a most beautiful dinner was
prepared out in the grove. After
everybody ate to their own satisfac-
tion there was plenty left to
feed Aficionado Session. The class
was called to order by N. A. Mc-
Intosh. R. H. Moore sang No. 37
for Elder Jacob Mitchell. The
class reported the following
leaders:H. O. Dyess, M. A. Leverette,
B. Horn, E. L. Bryan, E. A. Wilks
and H. P. Leverette.

At that time H. O. Dyess was

invited to sing three songs in
memory of J. S. J. Sanders, and
J. L. Marler for W. H. Cook; Mrs.
H. O. Dyess, D. F. Wilks, F. T.
Wooten, J. N. Livings and A. T.

Gift Will Aid All These

(1) On their way to feed the bombed out population of a stricken British city, roll these American food vans. This is only one of many services rendered by British War Relief.

(2) Like this young lad, many Polish citizens have been shot at the border while trying to escape to safety. This is the fate of thousands of Polish refugees.

(3) German invaders watch as a city in Holland goes up in flames. The Queen Wilhelmina Fund aids Dutch refugees, including many families of the Royal Dutch family.

(4) Aviators on the Russian front serve as messengers for saving people of Russia.

(5) Main road through a dairy prison camp in Germany. Over 1,000 men, mostly Americans, are held here as prisoners of war. They are fed by American Red Cross workers. These are the Red Cross workers who have risked their lives to help the prisoners.

(6) These are the Red Cross workers who have risked their lives to help the prisoners.

(7) The Red Cross workers who have risked their lives to help the prisoners.

(8) Reverence cannot be measured nor can you purchase it.

(9) Efficient service is one thing, but service based on a sympathetic understanding of conditions and economy needs is quite another.

(10) Treatment with sulphur preserves the natural color and flavor of dried fruit and also prevents souring and insect attacks during drying.

(11) Lamps are the eyes of the plane, night training in size from cockpit lamps no larger than a pea to landing lamps of more than half-a-million candlepower.

(12) Radio combines voice and the ears of the plane, allowing communication between the ground and its squadron.

(13) Instruments are the sensitive brain that relays messages to the pilot from all parts of the ship and the carburetors giving the plane power to fly.

(14) Superchargers are the lungs of the plane, pumping extra oxygen to the engine to control the plane in flight.

(15) General Electric believes that its first duty as a good citizen is to be a good soldier.
